*Barbara Cepere*PETITION TO THE DIRECTOR UNDER 37 CFR 1.181(a) REGARDING ABANDONMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

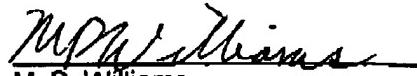

Sir:

Applicant requests that the above-identified application be revived on the ground that the Examiner should not have held it abandoned in the first place, because an SPE had promised withdrawal of the final action and issuance of a new, non-final action, by phone, which was confirmed by applicant's e-mail the day after the phone call, the e-mail having been read by the SPE the same day.

The e-mail (Exhibit 1 herewith) was sent on 7/23/08 to SPE Ryan requesting a quality review of the subject final rejection. Due to his illness, Director Stone's office said the matter should be referred to SPE Tsang-Foster. The e-mail requesting quality review was then forwarded to SPE Tsang-Foster, on August 18. The response to the request for quality review was a phone call from SPE Tsang-Foster on August 20 in which she simply stated that the final rejection would be withdrawn and that a new non-final office action would be issued. The next day, August 21, 2008, the undersigned sent an e-mail (Exhibit 2 herewith) to SPE Tsang-Foster confirming what SPE Tsang-Foster had said in the phone call of August 20, 2008. Ten minutes after being sent, SPE Tsang-Foster read the e-mail (Exhibit 3 herewith). SPE Tsang-Foster never contradicted the confirmation in the undersigned's August 21 e-mail in any fashion whatsoever. The subject e-mails are available in the computer of the patent specialist who works with the undersigned, and they are listed in said computer, at the appropriate dates, as indicated in the attached Declaration of the patent specialist.

By sidestepping the requested review and offering instead a new office action, the status of the case shifted from (a) response due from applicant, to (b) action due from the Office.

Respectfully submitted,

M. P. Williams

Please review the Office Action of Keith Walker in SN 10/816,403, mailed 7/16/08, regarding the following points.

1. Applicant formally requested by faxed paper a supervised interview before the next Office Action. Messrs. Ryan, Ruthkosky and Walker received notice of that request by e-mail. No notice of the most recent action was given; no interview was granted.
2. No amendments were made in the last two responses but the current rejections were made final even though some are based on a newly cited reference.
3. Claim 6 was cancelled 9/21/07. It was rejected 3/6/08 and currently (7/16/08).
4. Examiner says Declarations of Guthrie and Lake are not persuasive because of no supporting evidence for assertions; in fact, the Declarations identify facts in the Fuji reference. The Guthrie Declaration exposes the actual facts, step by step, by means of cited quotes from the Fuji reference.
5. The assertions of the Examiner in the two first full paragraphs of page 8 are not related in detail to the reference, and are patently incorrect.
6. Certainly, the rejection cannot be final and must be withdrawn.
7. Applicant still requests supervisory review and a supervised interview prior to any further action except allowance.

Cordially,

Mel Williams

Dear Ms. Tsang-Foster:

This is to confirm that Mr. Walker will withdraw the current final action and issue a new non-final action per your phone call on 8/20/08.

Cordially,

Mel Williams
